Objective

I am a dedicated Computer Science student with a strong background in programming, networking, and cybersecurity. I am applying for a Full Stack Development scholarship at eMobilis to further my skills in web development, cloud technologies, and ethical tech practices. I aim to build secure and impactful systems that solve real-world challenges.

❖ Educational Background

- Bachelor of Science in Computer Science
  - The Co-operative University of Kenya, Nairobi
  - Expected Graduation: December 2027
  - Relevant coursework: C, C++, Python, HTML, CSS, Computer Architecture, Electronics

- High School Certification
  - Sawagongo National School, Siaya – (2019–2022)

❖ Certifications

- ✓ HTML & CSS – Codecademy
- ✓ Digital Safety & Security Awareness – Cisco Networking Academy
- ✓ Disinformation & Misinformation – KSFA
- ✓ Internet Security & Linux Fundamentals
- ✓ Cybersecurity Fundamentals & Digital Literacy
- ✓ Huawei Datacom
- ✓ -Cisco Packet Tracer – Cisco Networking Academy
- ✓ Networking Essentials (ongoing – Cisco)

❖ Technical Skills

- Programming: C (advanced), C++, Python (intermediate), HTML, CSS
- Networking & Security: Cisco Packet Tracer, Huawei Datacom, Wireshark, Burp Suite
- Cybersecurity: Internet Security, Linux Fundamentals, KSFA Certification
- Tools: VS Code, Dev C++, Git, Cisco Networking Academy
- Digital Literacy:Microsoft Office Suite, online collaboration tools
- Soft Skills: Legal drafting, media literacy, ethical reasoning

❖ Projects

- Student Management System – Advanced C Programming
  - Designed a modular CLI-based system to manage student records
  - Implemented error handling and file operations
  - Focused on clean architecture and efficient workflow

❖ Leadership & Community Engagement

- Tech Peer Mentor – Helped classmates with debugging and system setup
- Digital Ethics Advocate – Promoted awareness of misinformation and online safety

❖ Career Goals

- Build secure platforms for education and civic engagement
- Contribute to open-source projects and community-driven tech initiatives
- Become a skilled Full Stack Developer capable of creating scalable and user-friendly web applications
